FLOOD SAFETY AND PREPAREDNESS

Floods are among the most frequent and costly natural disasters. Flooding often occurs following a hurricane, thawing snow, or several days of sustained rain. Flash floods occur suddenly, due to rapidly rising water along a stream or low-lying area. Learn what to do to keep your loved ones safe.

What is the difference between a Flood **WATCH** and Flood **WARNING**?

- A Flood **WATCH** means a flood or flash flood is possible; and
- A Flood **WARNING** means flooding or flash flooding is already occurring or will occur soon. **TAKE IMMEDIATE PRECAUTIONS!!**

Be Prepared:

- Create an evacuation plan (that includes your pets)
- Ensure family members know how to get in touch if separated
- Prepare emergency kits (for family and pets)
- Construct barriers to stop floodwater from entering your home

Service – Teamwork – Accountability – Respect – Safety
