INDEPENDENT AUDITORS' REPORT

Members South Central Connecticut Regional Water Authority New Haven, Connecticut

Report on the Audit of the Financial Statements *Opinions*

We have audited the accompanying financial statements of the business-type activities and fiduciary activities of the South Central Connecticut Regional Water Authority, as of and for the years ended May 31, 2025 and 2024, and the related notes to the financial statements, which collectively comprise South Central Connecticut Regional Water Authority's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and fiduciary activities of the South Central Connecticut Regional Water Authority, as of May 31, 2025 and 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the South Central Connecticut Regional Water Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the South Central Connecticut Regional Water Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of South Central Connecticut Regional Water Authority's internal
 control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about South Central Connecticut Regional Water Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and the pension and other postemployment benefit schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 23, 2025, on our consideration of the South Central Connecticut Regional Water Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the South Central Connecticut Regional Water Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering South Central Connecticut Regional Water Authority's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

Clifton Larson Allen LLP

West Hartford, Connecticut September 23, 2025

INTRODUCTION

As noted in the Independent Auditors' Report from CliftonLarsonAllen LLP, Management's Discussion and Analysis (MD&A) provides supplemental information to the audit and should be read in conjunction with it. The purpose of the MD&A is to introduce and highlight the more detailed information provided in the audited financial statements. For example, it will assess improvement to or deterioration of the South Central Connecticut Regional Water Authority's (the Authority's) financial position and will identify factors that, in management's opinion, affected financial performance during the fiscal period under review.

CONTENTS OF THE AUDITED FINANCIAL STATEMENTS

The Authority's audited financial statements include the following:

Statements of net position

These statements provide information about the Authority's investments in resources (assets) and its obligations to creditors (liabilities), with the difference between them reported as net position.

Statements of revenues, expenses, and changes in net position

These statements demonstrate changes in net position from one fiscal period to another by accounting for revenues and expenditures and measuring the financial results of operations. The information may be used to determine how the Authority has funded its costs.

• Statements of cash flows

These statements provide information concerning the Authority's cash receipts and payments, as well as net changes in cash resulting from operations, capital, and related financing, and investing activities.

Statements of fiduciary net position

These statements provide information about net position available for benefits under the Authority's employee benefit plans and changes in net position available for benefits. In accordance with governmental accounting guidelines (GASB Statements No. 68 and No. 75), the Authority's pension plans, and other post-employment benefits (OPEB) are included in the financial statements.

Notes to financial statements

Notes to the audited financial statements contain information essential to understanding them, such as the Authority's accounting methods and policies.

THE AUTHORITY'S BUSINESS

The primary purpose of the Authority, according to its enabling legislation, is to provide and assure an adequate supply of pure water at a reasonable cost to its water district and, to the degree consistent with the foregoing, to advance water conservation and the conservation and compatible recreational use of land held by the Authority.

RWA Well Services, LLC is a wholly owned subsidiary of RWA Commercial Enterprises, LLC. RWA Commercial Enterprises, LLC is a wholly owned subsidiary of the Authority. The Authority also established RWA Environmental & Lab Services, LLC and RWA Commercial Services, LLC. However, there are no operations under these two entities. The results of RWA Well Services, LLC are consolidated entities reflected in the Authority's financial statements. The Authority's enabling legislation was modified in June 2017, allowing the Authority to conduct or invest in certain "non-core" activities (e.g., related to water, environment, agricultural, and certain renewable energy) as more specifically defined in the legislation. During fiscal 2024, and signed into law on June 5, 2024, "non-core" activities were expanded to include "sustainable manufacturing support." At this time there were also other changes made to Special Act 77-98, as amended. Additionally, in the June 2024 Special Session, Special Act 24-01 was passed and signed into law in July. Special Act 24-01 created the Aquarion Water Authority (AWA) and allowed AWA to own and operate Aquarion Water Company, if AWA was a successful bidder, and subject to regulatory approvals.

During fiscal 2020, the Watershed Fund was renamed The Claire C. Bennitt Watershed Fund (the Watershed Fund) in honor of its founder and former Board Chair, Claire C. Bennitt. The Watershed Fund was established by the Authority for the purpose of protecting land on the watershed through the acquisition of open space and promotion of environmental education. The Watershed Fund is reflected as a consolidated entity within the audited financial statements.

CHANGE IN NET POSITION	\$	37,283	\$	41,519	\$	31,038

Operating revenues

The change in water revenues from fiscal 2024 to fiscal 2025 is primarily due to the rate increase that went into effect on January 3, 2025. The primary driver of the increase in other revenues is the Homeowner Safety Valve (HSV) transaction that occurred on July 1, 2024, and the full-year impact of the October 2023 acquisition by RWA Well Services.

The change in water revenues from fiscal 2023 to fiscal 2024 is primarily due to the rate increase that went into effect on June 28, 2023. The primary drivers of the increase in other revenues are the third acquisition, under RWA Well Services, in October 2023, and a full-year impact of a prior PipeSafe price adjustment.

Operating expenses

Operating and maintenance expenses from fiscal 2024 to fiscal 2025 increased by approximately \$4.8 million. The larger increases are due to payroll expense, employee benefits and electric services. The increase in electric services is primarily due to public benefit charges and the increase in employee benefits is impacted by the implementation of GASB 101, compensated absences. Pension expense, under GASB 68 decreased from fiscal 2024 to fiscal 2025. However, Other Post Employment Benefits (OPEB) expense, under GASB 75, increased. There are other net changes across multiple accounts.

Operating and maintenance expenses from fiscal 2023 to fiscal 2024 increased by approximately \$3.8 million. The larger increases are due to payroll expense, employee benefits, chemicals, electric services, and Information Technology Licenses and Maintenance fees. Pension expense, under GASB 68 and Other Post Employment Benefits (OPEB) expense, under GASB 75, decreased from fiscal 2023 to fiscal 2024. There were other net changes across multiple accounts.

Depreciation and amortization expense increased from fiscal 2024 to fiscal 2025 primarily due to the increase in gross property plant and equipment. The fiscal 2025 increase in amortization is also attributable to the intangible asset amortization associated with the HSV transaction and Subscription-Based Information Technology Arrangements (SBITA).

Depreciation and amortization expense increased from fiscal 2023 to fiscal 2024 primarily due to the increase in gross property plant and equipment. There was also an impact on depreciation and amortization due to the fiscal 2024 additional acquisition in RWA Well Services, LLC. This category includes amortization associated with leases under GASB 87 and SBITA under GASB 96. Depreciation also includes amortization of intangible assets associated with RWA Well Services, LLC.

Payments-in-Lieu-of-Taxes (PILOT) to municipalities increased from fiscal 2024 to fiscal 2025 and increased between fiscal 2023 and fiscal 2024. PILOT variances are primarily due to changes in pipe and mill rates.

Nonoperating income and expenses

The decrease in interest income from fiscal 2024 to fiscal 2025 is primarily due to lower interest on arrears as well as a lower interest rate environment.

Interest income increased from fiscal 2023 to fiscal 2024 due to the higher interest rate environment resulting in higher earnings on investments.

Due to market conditions, the realized and unrealized investment gain between May 2024 and May 2025 is approximately \$.2 million and the gain between May 2023 and May 2024 was approximately \$.4 million, excluding the Watershed Fund.

Disposal of assets

In fiscal 2025 and fiscal 2024, the Authority had a net loss on the retirement and disposition of certain assets. This net loss was due to the retirement of certain "plant" assets with a remaining book value partially offset by the proceeds associated with asset dispositions. In fiscal 2025, the net loss was partially offset by the proceeds associated with a land disposition. The net loss in fiscal 2025 is comparable to the net loss in 2024.

In fiscal 2024 and fiscal 2023, the Authority had a net loss on the retirement and disposition of certain assets. This net loss was due to the retirement of certain "plant" assets with a remaining book value partially offset by the proceeds associated with asset dispositions. The net loss in fiscal 2024 is lower than in 2023 due to retirements having a lower remaining book value.

Amortization

The amortization of bond discount, premium, issuance costs, and deferred refunding losses are more favorable in fiscal 2025 than in fiscal 2024. This is primarily due to the lower amortization of deferred refunding losses partially offset by lower premium amortizations.

The amortization of bond discount, premium, issuance costs, and deferred refunding losses were more favorable in fiscal 2024 than in fiscal 2023. This is primarily due to the higher premium amortizations.

The fiscal 2025 amortization of goodwill is higher due to the amortization of the goodwill associated with the July 2024 acquisition of HSV.

Intergovernmental revenues

Intergovernmental revenues in fiscal 2025 increased over fiscal 2024. In fiscal 2025, two reimbursements under a Congressional Directed Spending grant were recorded as well as one Drinking Water State Revolving Fund (DWSRF) grant.

Intergovernmental revenues in fiscal 2024 also increased over fiscal 2023. In fiscal 2024, two DWSRF grants were received. In fiscal 2023, two DWSRF grants were also received; however, the grant amounts were smaller.

Capital assets

The increase in capital assets from fiscal 2024 to fiscal 2025 is primarily due to the increase in utility property plant and equipment in service. The reduction in Construction Work in Progress is less than the increase in SBITA assets.

The fiscal 2025 increase in intangible assets, net is due to the HSV transaction in July 2024.

The increase in capital assets from fiscal 2023 to fiscal 2024 is primarily due to the increase in Construction Work in Progress.

Current assets

The following itemizes the change in current assets between May 31, 2024 and 2025, and between May 31, 2023 and 2024, respectively:

	May 31,			
		2025		2024
Increase (Decrease) in Cash and Cash Equivalents Increase (Decrease) in Accounts Receivable, Net	\$	(4,420,048) 2,905,660	\$	3,822,050 (1,689,562)
Increase (Decrease) in Lease Receivable		(13,933)		(418)
Increase (Decrease) in Accrued Water Revenue		(961,118)		342,698
Increase (Decrease) in Interest Receivable		(15,161)		61,061
Increase (Decrease) in Materials and Supplies		(3,409)		695,452
Increase (Decrease) Watershed Fund Investments		97,200		4,232
Increase (Decrease) in Prepayments and Other Current Assets		1,213,640		461,253
Net Increase (Decrease) in Current Assets	\$	(1,197,169)	\$	3,696,766

Cash and cash equivalents decreased due to the reduction in the Growth Fund partially offset by an increase in the General Fund, and a smaller increase in the Revenue Fund. During fiscal 2025, the Growth Fund was used to partially finance the July 2024 HSV transaction as well as temporarily fund certain expenses including those associated with the potential AWA transaction. Through the year-end disposition, the General Fund was increased by \$2.5 million and \$1.75 million was deposited into the Growth Fund to partially replenish this fund. Through the year-end disposition, approximately \$16.1 million was transferred to the Construction Fund. In addition, a contribution was made to the Construction Fund from RWA Well Services.

The increase in cash and cash equivalents between fiscal 2024 and fiscal 2023 is due to the increase in the Growth Fund, the General Fund, and the Revenue Fund. Through the year-end disposition, the Authority more than replenished expenditures from the Growth Fund and the net increase in this fund's balance was \$1.2 million. Through the year-end disposition the General Fund was increased by \$1 million. The net increase in the Revenue Fund, subsequent to the year-end disposition, was approximately \$.9 million. Also, through the year-end disposition, approximately \$21.5 million was transferred into the Construction Fund, reflected under Restricted Assets. In addition, a contribution was made to the Construction Fund from RWA Well Services.

The increase in account receivable, net is primarily due to the disruption (e.g., auto-pay) with the transition to a new Customer Information System in the last two months of the fiscal year. While total accounts receivable increased, the allowance reserve was reduced due to the reduction in aged receivables from May 31, 2024, to May 31, 2025.

The decrease in the accounts receivable, net in both fiscal 2024 and fiscal 2023 primarily relates to an improvement in customer accounts receivable from each of the prior year's balances from the elevated level due to impacts from COVID-19. This is partially offset by the impact on customer accounts receivable associated with both the June 2023 and the January 2022 rate increase.

The decrease in accrued revenue from fiscal 2025 and fiscal 2024 is primarily due to the timing of billing at year-end. The increase in accrued revenue from fiscal 2024 and fiscal 2023, is primarily due to the June 2023 and January 2022 rate increases.

The decrease in interest receivables in fiscal 2025 is primarily due to the lower accrued investment earnings because of the lower interest rate environment. The increase in interest receivables in fiscal 2024 is primarily due to the higher accrued investment earnings because of the higher interest rate environment impacting earnings.

Materials and supplies in fiscal 2025 are comparable to the balance at the end of fiscal 2024, with a change of less than \$10 thousand.

The increase in materials and supplies in fiscal 2024 primarily relates to the flexnets in inventory. There was also a small increase in general stores and miscellaneous supplies that are more than offset by a reduction in chemical inventory.

The increase in prepayments and other current assets from fiscal 2024 to fiscal 2025 is primarily due to jobbing receivables.

The increase in prepayments and other current assets from fiscal 2023 to fiscal 2024 is primarily due to the increase in prepaids, including insurance, partially offset by a lower jobbing receivable.

Watershed Fund Investments:

Between May 31, 2024, and May 31, 2025, the Watershed Fund investments reflect a small net increase in market value of approximately \$97 thousand.

Between May 31, 2023 and May 31, 2024, the Watershed Fund investments reflect a small net increase in market value of approximately \$4 thousand.

Restricted assets (investments)

The term "restricted assets" refers primarily to certain funds established under the Authority's *General Bond Resolution* whose use is restricted as required by that document, e.g.:

- Construction Fund:
- Rate Stabilization Fund;
- Debt Reserve Fund;
- Operating Reserve Fund;
- Debt Service Funds;
- Capital Contingency;
- Payment in Lieu of Taxes (PILOT) Fund

The Authority invests these restricted assets in securities as allowed by the *General Bond Resolution*, e.g., in direct obligations of the federal or state governments (or agencies) or in obligations guaranteed by the federal government.

Restricted assets decreased by approximately \$3.0 million between May 31, 2025, and May 31, 2024. This reduction is primarily from the Construction Fund that decreased by approximately \$4.4 million. This decrease is primarily due to the year-end disposition and the grant reimbursements being a little lower than the internal funds used to support the capital program during fiscal 2025. A decrease in the Debt Service Fund and Restricted Accounts Receivable also contributed to the decrease in Restricted Assets. These decreases were partially offset by the Debt Reserve Fund that increased by approximately \$1.6 million due to the 39th Series and DWSRF financing, an increase in the Operating Reserve, as required under the *General Bond Resolution*, an increase in the PILOT Fund, and a small increase in the Capital Contingency through a DWSRF financing.

Restricted assets increased by approximately by \$20.9 million between May 31, 2024, and May 31, 2023. This increase is primarily due to the \$15.2 million increase in the Construction Fund. This increase is due to the year-end disposition, the remaining proceeds from the May DWSRF financing proceeds, and the use of the Thirty-seventh Series bond proceeds and DWSRF financing proceeds available to partially fund the capital program. These increases to the Construction fund were partially offset by capital expenditures funded through internally generated funds. The Debt Reserve Fund increased through both DWSRF financing, and the Thirty-seventh Series bonds and the Capital Contingency was increased through DWSRF financing. The Operating Reserve increased due to the year-end transfer into the Operating Reserve, as required under the *General Bond Resolution*, an increase in the Debt Service Fund, the PILOT Fund, and an increase in Restricted Accounts Receivable also contributed to the increase in Restricted Assets.

Other long-term assets

As of May 31, 2025, regulatory assets, excluding the AWA related regulatory assets, totaled approximately \$15.1 million, an increase of approximately \$6.1 million. This increase is primarily due to the \$5.8 million regulatory asset associated with the Lead and Copper Rule Revisions/Improvements as well as an increase in cost of issuance associated with the 38th and 39th Series partially offset by amortizations. At May 31, 2025, the cost of issuance regulatory assets totaled approximately \$4.8 million, and the deferred charges regulatory assets totaled approximately \$4.4 million. The AWA related regulatory assets totaled approximately \$14.8 million as of May 31, 2025. There is a corresponding due to RWA from AWA for this amount as this will be reimbursed by AWA, if the AWA transaction to acquire Aquarion receives regulatory approval and closes.

As of May 31, 2024, regulatory assets totaled \$9.1 million, net of amortizations, representing a decrease of approximately \$.2 million over May 31, 2023. Regulatory assets include \$4.5 million of bond issuance costs and \$4.6 million in regulatory assets, including \$3.7 million deferred charges of estimated environmental remediation costs of a site on Newhall Street in Hamden, Connecticut, and other regulatory assets totaling \$.9 million.

Deferred Outflows:

Goodwill results primarily from the Authority's acquisition of Birmingham Utilities on January 16, 2008. Beginning in fiscal 2022, goodwill has been recorded associated with the RWA Well Services, LLC transactions. Additionally, in fiscal 2025 goodwill was recorded associated with the Authority's HSV transaction. In fiscal 2024, goodwill increased due to the October 2023 acquisition by RWA Well Services, LLC. Goodwill is being amortized over the remaining life of assets acquired. Goodwill is assessed at least annually for impairment by applying a fair value-based test. The Authority determined that for the years ended May 31, 2025 and 2024, no impairment of goodwill has occurred.

Between May 31, 2025, and May 31, 2024, deferred outflows associated with refunding decreased by approximately \$6.8 million primarily due to the 38th Series as well as amortizations.

Between May 31, 2024, and May 31, 2023, deferred outflows associated with refunding decreased by approximately \$1.8 million primarily due to the 37th Series and amortizations.

Between May 31, 2025, and May 31, 2024, deferred outflows associated with Pension and OPEB decreased by approximately \$.8 million. This is due to a decrease in both pension and OPEB deferred outflows.

Between May 31, 2024, and May 31, 2023, deferred outflows associated with Pension and OPEB decreased by approximately \$4.3 million.

Current liabilities

The Authority's current liabilities, excluding liabilities associated with AWA, increased by approximately \$3.2 million between May 31, 2024 and May 31, 2025. This increase is primarily due to the increased deferred revenue due to HSV. The current liabilities also include approximately \$11.3 million associated with AWA. This amount includes the bridge commitment for the financing and professional fees incurred but not yet due or paid.

The authority's current liabilities increased by approximately \$2.9 million between May 31, 2023 and May 31, 2024. The increase is primarily due to the increase in the current portion of bonds payable and the current portion of DWSRF project loan obligations. Also contributing to the increase is accounts payable, customer advances, and other current liabilities.

Payables from restricted assets

Between May 31, 2024, and May 31, 2025, payables from restricted assets is virtually unchanged. There was an increase in accounts payable for construction, inclusive of retainage, however, this was offset by a decrease in customer advances. Accrued interest payable is virtually unchanged.

Between May 31, 2023, and May 31, 2024, payables from restricted assets increased by approximately \$2.3 million. This increase is primarily due to an increase in accounts payable for construction, inclusive of retainage, as well as an increase in customer advances. These increases were partially offset by a reduction in accrued interest payable.

Other long-term liabilities

The balance in other long-term liabilities associated with the Newhall Street site in Hamden remained zero as of May 31, 2025. The balance was also zero as of May 31, 2024. The May 31, 2025 balance relates to the Watershed Fund.

The May 31, 2024 balance relates to the October 2024 transaction by RWA Well Services, LLC.

Long-term debt

Between May 31, 2025, and May 31, 2024, long-term revenue bonds payable, at par, decreased by approximately \$9.1 million, excluding the current portion. This is due to the August 2024 payment and the 38th Series refunding partially offset by the 39th Series financing. Net premiums and discounts from revenue bonds payable decreased by approximately \$.8 million due to the 38th Series net reduction to premiums and amortizations, partially offset by the 39th Series premium.

There is also an increase in the non-current current portion of DWSRF project loan obligations in fiscal 2025. This is due to a DWSRF financing during fiscal 2025 for the Derby Water Storage Tank Project, partially offset by principal payments throughout the fiscal year.

Between May 31, 2024, and May 31, 2023, long-term Water Revenue Bonds payable, at par, decreased by approximately \$7.2 million, excluding the current portion. This is due to the August 2023 payment and the 37th B-1 refunding partially offset by the 37th Series financing. Net premiums and discounts from revenue bonds payable decreased by approximately \$1.7 million due to amortizations partially offset by the 37th Series premium and the net premium impact associated with the 37th B-1 Refunding Series.

There is also an increase in the non-current current portion of DWSRF project loan obligations in fiscal 2024. This is due to the two DWSRF financing during fiscal 2024, including the relatively large West River Treatment Plant Improvements partially offset by principal payments throughout the fiscal year.

Net pension liability

Between May 31, 2024, and May 31, 2025, the net pension liability decreased by approximately \$2.8 million. The plan liability increased by less than the market value increased. In fiscal 2025, contributions were approximately \$1.0 million in excess of the actuarial required contribution, and this contributed to the reduction in the liability. Actual versus expected experience was higher for the salaried plan partially offsetting the higher investment earnings.

Between May 31, 2023 and May 31, 2024, the net pension liability decreased by approximately \$6.3 million. This decrease is primarily due to the anticipated investment earnings versus the actual returns. While the market values were down at the end of fiscal 2023, by the end of fiscal 2024 market values recovered and surpassed prior levels. In fiscal 2024, contributions were approximately \$2.1 million in excess of the actuarial required contribution, and this also contributed to the reduction in the liability. Actual versus expected experience was higher for the bargaining unit and the salaried plan partially offsetting the higher investment earnings.

Net other post-employment benefit liability

Between May 31, 2024, and May 31, 2025, the net other post-employment benefit liability decreased by approximately \$1.0 million. This decrease is due to the anticipated plan assumptions and investment earnings versus the actual experience and returns.

Between May 31, 2023, and May 31, 2024, the net other post-employment benefit liability increased by approximately \$.4 million. This is primarily due to the actual vs. expected experience. This was partially offset by the increase in the investment earnings.

Deferred Inflows

Between May 31, 2024, and May 31, 2025, deferred inflows are higher by approximately \$.5 million due to the increase in the pension deferred inflows being more than the decrease in the deferred inflows for OPEB.

Between May 31, 2023, and May 31, 2024, deferred inflows were lower by approximately \$1.8 million. This is primarily due the decrease in the OPEB deferred inflows.

Net Investment in Capital Assets

Between May 31, 2025, and May 31, 2024, the increase in capital net of related debt is primarily due to the increase in net plant and the decrease in capital related debt, including premiums.

Between May 31, 2024, and May 31, 2023, the increase in capital net of related debt is primarily due to the increase in net plant and the decrease in capital related debt, including premiums. The October 2023 acquisition under RWA Well Services, LLC also increased the capital assets. These increases are partially offset by an increase in accounts payable for construction. The year-over-year increase is approximately \$15.5 million.

Net position, restricted

Restricted net position decreased, excluding the AWA regulatory assets net of related liabilities, being considered restricted for financial reporting, from May 31, 2024, to May 31, 2025. This small reduction is primarily due to the reduction in the Construction Fund as discussed above. Including the AWA related amount, there is a small increase.

Restricted net position increased approximately \$21.0 million from May 31, 2023, to May 31, 2024, primarily due to the year-over-year increase in restricted assets, net of remaining financing proceeds. By the end of fiscal 2024, the 37th Series proceeds were fully expended. There were remaining proceeds from the May 2024 DWSRF financing.

Unrestricted net position

Unrestricted net position increased from May 31, 2024, to May 31, 2025, due to the increase in current assets and unrestricted deferred outflows being higher than the increase in current liabilities and the change in deferred inflows.

Unrestricted net position increased by approximately \$5.0 million from May 31, 2023, to May 31, 2024, due to the increase in current assets and unrestricted deferred outflows being higher than the increase in current liabilities and the change in deferred inflows. The unrestricted net position of RWA Well Services contributed to this increase.

THE AUTHORITY'S CUSTOMER BASE

The Authority's customer base is primarily residential and commercial. Of the Authority's approximately 121,100 customers, 116,500 are residential and commercial water customers. The customer base also includes industrial, public authority, wholesale, and fire service. Between May 31, 2024 and May 31, 2025, there has been minimal growth in the Authority's customer base.

LIQUIDITY AND CAPITAL RESOURCES

Utilizing the Maintenance Test calculations as prescribed in the *General Bond Resolution*, in fiscal 2025 the Authority received approximately \$141.5 million in cash from operations and a combined \$5.7 million from earnings on investments and a Build America Bond subsidy, these amounts being more than sufficient to pay for operations and maintenance, PILOT and to fund transfers associated with debt service. As part of the fiscal 2025 year-end disposition of the Revenue Fund, the Authority had approximately \$20.3 million available after funding required reserves. The Authority transferred \$2.5 million into the General Fund, approximately \$1.75 million into the Growth Fund and transferred approximately \$16.1 million to the Construction Fund, including the funding of depreciation. In addition, in fiscal 2025, the Authority contributed to the pension plans approximately \$1.0 million in excess of the actuarial requirement. Internally generated funds were also used to fund a portion of the capital improvement program. A transfer was also made from RWA Well Services, LLC into the Construction Fund.

CREDIT RATING

In December 2024, Moody's Investor Services affirmed the Aa3 rating on outstanding debt and Standard & Poor's Rating Services in December 2024 affirmed the Authority's credit rating of AA-.

FINANCIAL STATEMENT PRESENTATION

The Authority prepares its financial statements on an accrual basis in accordance with accounting principles generally accepted in the United States of America.

REQUEST FOR INFORMATION

Please note that the Authority's audited financial statements include data from its fiscal years ended May 31, 2025 and 2024. Comparable information for earlier years is available, as noted below.

This report is designed to provide a financial overview of the Authority. Questions concerning the information in this report or requests for additional information should be addressed in writing to the Senior Vice President, Chief Financial Officer & Head of Corporate Development, South Central Connecticut Regional Water Authority, 90 Sargent Drive, New Haven, Connecticut 06511.

NOTE 1 ORGANIZATION

The South Central Connecticut Regional Water Authority (the Authority) was created, effective July 25, 1977, pursuant to Special Act No. 77-98 (the Act), as amended. Per this enabling legislation, the primary purpose of the Authority is to provide and assure an adequate supply of pure water at a reasonable cost to the South Central Connecticut Regional Water District (the District) and, to the degree consistent with the foregoing, to advance water conservation and the conservation and compatible recreational use of land held by the Authority. The Five-Member Authority is elected by the 21-member Representative Policy Board (RPB), which consists of a member from each of the 20 municipalities within the District and one member appointed by the Governor of the State of Connecticut.

In 1999, the Authority established the Watershed Fund, a separate legal entity organized for the purpose of protecting watershed land that has a distinctive ecological significance through open space acquisition and environmental education. In November 2019 (fiscal 2020), the Authority approved a name change of the Watershed Fund to The Claire C. Bennitt Watershed Fund, Inc. (the Watershed Fund). The Watershed Fund is included in the Authority's financial statements as a blended component unit as the Five-Member Authority votes on the Watershed Fund's governing body. Information regarding the Watershed Fund can also be found in Note 7, The Claire C. Bennitt Watershed Fund. Requests for standalone financial statements for the Watershed Fund should be addressed in writing to President, The Claire C. Bennitt Watershed Fund, Inc., 90 Sargent Drive, New Haven, CT 06511.

The Authority's enabling legislation was modified in June 2017, allowing the Authority to conduct and invest in certain "non-core" business activities as specifically defined. In 2021, the Authority established RWA Commercial Enterprises, LLC, a wholly-owned subsidiary of the Authority and RWA Well Services, LLC, a wholly-owned subsidiary of RWA Commercial Enterprises, LLC, Two asset purchase transactions were completed in fiscal 2022 and one in fiscal 2024 that, post-transaction, operate under RWA Well Services, LLC. RWA Commercial Enterprises, LLC and RWA Well Services, LLC are considered to be a part of the Authority and as such are included within the Authority's financial statements. These transactions are part of the Authority's efforts to identify additional revenue sources to mitigate rate pressures. The Authority has also established RWA Environmental & Lab Services, LLC and RWA Commercial Services, LLC. There are no operations under these two entities. In addition, in fiscal 2024, enabling legislation amendments were submitted that included "supporting sustainable manufacturing" to the definition of "non-core" business activities and in June 2024, these amendments passed. In addition, in the June Special Session. Special Act 24-01 was passed. This Act created the Aguarion Water Authority (AWA) and allowed for AWA to own and operate Aquarion Water Company if AWA was the successful bidder. Additionally, in July 2024, the Authority acquired the Homeowner Safety Valve protection plan offerings.

NOTE 1 ORGANIZATION (CONTINUED)

Accounting principles generally accepted in the United States of America require that the reporting entity include the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. A government is financially accountable for a legally separate organization if it appoints a voting majority of the organization's governing body and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the government. In addition to the entities noted above, this criteria has been considered and has resulted in the inclusion of the fiduciary component units as detailed below.

Fiduciary Component Units

The Authority has established two single-employer Public Retirement Systems (PERS) and one postretirement healthcare benefits (OPEB) plan to provide retirement benefits and postretirement healthcare benefits primary to employees and their beneficiaries. The Authority appoints the members of the Pension and Benefit Committee who govern the Pension and OPEB plans. The Authority contributes, at a minimum, the actuarial determined contribution.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting records of the Authority are maintained in accordance with accounting principles generally accepted in the United States of America. All assets, liabilities, net position, revenues, and expenses are accounted for in a proprietary fund except for employee benefit trusts, which are reported as fiduciary funds. For both proprietary and fiduciary funds, revenues are recognized when earned and expenses are recognized when incurred. The more significant accounting policies are summarized below.

Basis of Accounting

The Authority utilizes the accrual basis of accounting wherein revenues are recognized when earned and expenses when incurred.

Regulatory Accounting Policies

The Authority follows accounting principles generally accepted in the United States of America for regulated public utilities. Under these principles, regulated companies defer certain costs and credits on the statement of net position as regulatory assets and liabilities when it is probable that those costs and credits will be recoverable through the ratemaking process in a period different from when they otherwise would have been reflected in income. These deferred regulatory assets and liabilities are then reflected in revenues or expenses in the period in which the same amounts are reflected in rates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Regulatory Accounting Policies (Continued)

As of May 31, 2025, regulatory assets include approximately \$4.9 million of bond issuance costs and approximately \$10.2 million of deferred charges, net of amortization. Included in the \$10.2 million is approximately \$3.6 million associated with environmental remediation costs in the Town of Hamden, \$.5 million associated with a deferred repair and remediation costs, and \$.3 million of incurred costs associated with an interconnection. There is approximately \$5.8 million associated with compliance with the Lead and Copper Rule Revisions (LCRR) and Lead and Copper Rule Improvements (LCRI). In addition, there are regulatory assets of approximately \$14.8 million for transaction related costs and costs of issuance associated with the Aquarion Water Authority (AWA) acquisition of Aquarion Water Company and a corresponding payable to the Authority. The Authority has a corresponding receivable from AWA. The Authority will be reimbursed for these costs if the transaction receives regulatory approval and the transaction closes. The year-over year regulatory asset increase is primarily due to the AWA related costs and the costs associated with LCRR and LCRI partially offset by amortization.

As of May 31, 2024, regulatory assets include approximately \$4.5 million of bond issuance costs and \$4.6 million of deferred charges, net of amortization. Included in the \$4.6 million is approximately \$3.7 million associated with estimated environmental remediation costs in the town of Hamden, \$.5 million associated with a deferred repair and remediation costs, and \$.4 million of incurred costs associated with an interconnection.

Utility Plant

Capital assets in utility plant are defined by the Authority as assets with an initial cost of more than \$2,000 and an estimated life of more than one year. Such assets are recorded at cost if purchased or constructed, which includes material and direct labor, as well as indirect items, e.g., engineering, payroll taxes, employee benefits, and transportation. The costs of maintenance and repairs are charged to the appropriate operations and maintenance expense accounts as incurred, while the costs of renewal and betterments are capitalized. The book value of depreciable utility plant retired in the ordinary course of business is removed from the asset and accumulated depreciation accounts. Gain or loss realized upon disposal is credited or charged to income.

Donated capital assets are recognized at estimated acquisition value at date of donation. The cost of normal maintenance and repairs that do not add to the value of the related assets or materially extend their lives is charged to operations. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation expense is computed using the straight-line method based on estimated service lives. Half of a year's depreciation is provided for capital assets in the year they are placed in or removed from service.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Utility Plant (Continued)

The estimated service lives of capital assets are as follows:

	Useful Life		Useful Life
Asset Description	(Years)	Asset Description	(Years)
Source of Supply and Supply Mains	100	Meters	15
Wells and springs	30	Hydrants	60
Other Water Source Structures	10	Hydraulic Shovel and Front Loader	8
Power and Pumping Structures	30	Hydraulic Backhoe	6
Pumping Equipment	20	Compressors	10
Water Treatment Plan Structure	43	Computer Equipment	5
Water Treatment Equipment	23	Computer Software	5 to 15
Distribution Tanks	50	General Structures	10 to 32
Distribution Mains	85	Furniture and Fixtures	12
Services	50	Autos and Trucks	5
		Other	3 to 10

Lease assets are initially measured at the present value of payments expected to be made during the lease term, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset.

Subscription-Based Information Technology Arrangement (SBITA) assets are initially measured as the sum of the present value of payments expected to be made during the subscription term, payments associated with the SBITA contract made to the SBITA vendor at the commencement of the subscription term, when applicable, and capitalizable implementation costs, less any SBITA vendor incentives received form the SBITA vendor at the commencement of the SBITA term. Subsequently SBITA assets are amortized in a systematic and rational manner over the shorter of the subscription term or the useful life of the underlying IT assets.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, amounts due from banks and repurchase agreements that are collateralized by U.S. government securities. The Authority considers all unrestricted investments with an original maturity of three months or less to be cash equivalents.

For purposes of the statement of cash flows, the Authority considers demand deposits and all highly liquid investments with an original maturity of six months or less when purchased to be cash equivalents. In addition, because the State Short-Term Investment Fund (STIF) is sufficiently liquid to permit withdrawal of cash at any time without prior notice or penalty, equity in the pool is also considered a cash equivalent.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments

Investments are reported at fair value.

Watershed Fund - Investment in Community Foundation Portfolio

The Authority, through the Watershed Fund, maintains a fund held by the Community Foundation for Greater New Haven (the Fund) that was established with Watershed Fund funds. The Fund agreement provides that the Watershed Fund receive investment income from the Fund, to be determined by the Community Foundation in its sole discretion in accordance with its spending policy. The Watershed Fund has the ability to access the principal, subject to a 60-day notice period. The Fund is carried at fair value as discussed in Note 3.

Materials and Supplies

Materials and supplies inventories are presented at the lower of cost or market.

Restricted Assets

Pursuant to the Water System Revenue Bond Resolution, General Bond Resolution (the *General Bond Resolution*), the Authority maintains certain restricted assets, consisting principally of investments in U.S. Government and State of Connecticut obligations, which are carried at fair value. See Note 6, Restricted Assets.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period or periods and so will not be recognized as an outflow of resources until then. The Authority reports a deferred charge on refunding, goodwill, and deferred outflows related to pension and other postemployment benefits (OPEB) in the statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Goodwill is amortized and is reviewed for impairment at least annually by applying a fair value-based test. The Authority determined that for the years ended May 31, 2025 and 2024, no impairment of goodwill has occurred. A deferred outflow of resources related to pension and OPEB can result from differences between expected and actual experience, changes in assumptions, projected versus actual investment earnings or other inputs. With the exception of differences between projected and actual earnings, which are required to be recognized over a five-year period, these amounts are deferred and included in pension and OPEB expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension and OPEB plan (participating active employees and vested former employees).

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period or periods and so will not be recognized as an inflow of resources (revenue) until that time. The Authority reports a deferred inflow of resources related to pensions, OPEB, and lease receivable. A deferred inflow of resources related to pension and OPEB can result from differences between expected and actual experience, changes in assumptions, projected versus actual investment earnings, or other inputs. With the exception of differences between projected and actual earnings, which are required to be recognized over a five-year period, these amounts are deferred and included in pension and OPEB expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension and OPEB plan (participating active employees and vested former employees). The statement of net position also reports a deferred inflow of resources related to leases.

Bonds Premiums and Discounts

The net balances for bond premiums and discounts are reported separately from revenue bonds payable. These balances are amortized using the interest method, meaning amortization is based on interest payments over the terms of the series.

Net Pension Liability

The net pension liability is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service (total pension liability), net of the pension plans' fiduciary net position. The pension plans' fiduciary net position is determined using the same valuation methods that are used by the pension plan for purposes of preparing its statement of fiduciary net position. The net pension liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period.

Net OPEB Liability

The net OPEB liability is measured as the portion of the present value of projected benefit payments to be provided to current participating active employees and vested former employees that is attributed to past periods of service (total OPEB liability), less the amount of the OPEB plan's fiduciary net position. The OPEB plan's fiduciary net position is determined using the same valuation methods that are used by the OPEB plan for purposes of preparing its statement of fiduciary net position. The net OPEB liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Customer Deposits and Advances

Cash advances to reimburse the Authority for costs to construct supply mains are contributed to the Authority by customers, real estate developers and builders in order to extend water service to their properties. The Authority makes refunds on these deposits and advances in accordance with the deposit and advance agreements. After making refunds, the Authority records the remaining balance in the customer advance account for which work has been completed as a capital contribution.

Operating Items

Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a fund's principal ongoing operations. The principal operating revenues of the funds are charges to customers for delivery of goods and/or services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, payment in lieu of taxes, depreciation on capital assets, and lease, SBITA, and intangible assets amortization. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Accrued Water Revenue

The Authority accrues revenue based on an estimate of water service provided to each customer, net of allowance for uncollectible accounts, from the last meter reading date to the statement of net position date. Interest is accrued on unpaid customer accounts after 30 days from the billing date in fiscal year 2024 and through most of fiscal year 2025. However, starting in April of fiscal year 2025, balances after 28 days begin to be subject to interest.

Other Revenue

Other revenue includes revenue from the Howeowner Safety Valve and PipeSafe suite of offerings, including water, sewer and septic protection plans as well as protection plans with home plumbing, laboratory testing services, fleet repairs, rental income, and miscellaneous charges. Other revenue also includes the operating revenue of RWA Well Services, LLC.

Capital Contributions

Capital contributions include contributions-in-aid-of-construction resulting from direct nonrefundable contributions and the portion of customers' advances for construction that become nonrefundable. Also included are amounts representing nonrefundable contributions for construction purposes from governmental agencies. However, grants from governmental agencies are included in intergovernmental revenues.

Net Position Flow Assumption

The Authority's *General Bond Resolution* prescribes the flow of funds and the manner at which they are expended. The Authority's net position is recorded in accordance with the General Bond Resolution. The flow of funds under the General Bond Resolution for monies remaining in the Revenue Fund after making all required monthly transfers (e.g., to the Debt Service Fund, PILOT Fund, and, if required, to the Debt Reserve Fund) is to the Capital Contingency Fund, Operating Reserve, Rate Stabilization Fund Variable Rate Bonds Sub account, to meet any deficiency.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Position Flow Assumption (Continued)

If there are no deficiencies, remaining monies shall be transferred to the General Fund. Monies in the General funds can be transferred, at the option of the Authority, to the Construction Fund, Rate Stabilization Fund, or other discretionary funds. In April 2025, a General Bond Resolution was adopted for AWA.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results may differ from those estimates.

Adoption of New Accounting Standards:

In April 2022, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 99, *Omnibus 2022*. This statement aims to achieve a unified model for recognition and measurement guidance for compensated absences. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. This statement addresses practice issues that have been identified during implementation and application of certain GASB Statements, such as, derivative instruments within the scope of GASB Statement No. 53, clarification of provisions related to leases, public-private and public-public partnerships (PPP), and subscription-based information technology arrangements (SBITA). Accounting and financial reporting for financial guarantees are also addressed in this statement. The requirements of this Statement are effective for fiscal years beginning after June 15, 2023, and all reporting periods thereafter.

The Authority adopted the requirements of the guidance effective June 1, 2024. The implementation did not have any impact on the Authority's financial statements.

In June 2022, the Governmental Accounting Standards Board (GASB) issued Statement No. 100, *Accounting Changes and Error Corrections*. This Statement clarifies the accounting and financial reporting requirements for accounting changes and error corrections. The requirements of this Statement are effective for fiscal years beginning after June 15, 2023, and all reporting periods thereafter.

The Authority adopted the requirements of the guidance effective June 1, 2024. The implementation did not have any impact on the Authority's financial statements.

In June 2022, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 101, *Compensated Absences*. This statement aims to achieve a unified model for recognition and measurement guidance for compensated absences. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter.

The Authority adopted the requirements of the guidance effective June 1, 2024. The implementation did not have a material impact on the Authority's financial statements.

NOTE 3 DEPOSITS AND INVESTMENTS

The Authority's *General Bond Resolution* Section 404A requires Authority revenue to be deposited promptly.

Section 411A of the Authority's *General Bond Resolution* requires that money held in its various funds by the Authority, or its trustee be invested in investment securities, which are defined as follows:

- Direct obligations of the United States of America;
- Obligations guaranteed by the United States of America;
- Debt issued by federal agencies;
- Debt issued by states or their agencies (with ratings qualifications);
- Repurchase agreements;
- Short-term investment funds administered by a state;
- Any obligation approved in writing by Moody's Investors Service; and
- Standard & Poor's Ratings Group.

The Authority utilizes a variety of these investment options. The Authority's deposits and investments held in the Growth Fund are not governed by the *General Bond Resolution*.

Deposits

Deposit Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the Authority's deposit will not be returned. To limit custodial credit risk, the Authority utilizes a sweep product, for certain accounts, under which deposits are fully insured.

Based on the criteria described in GASB Statement No. 40, *Deposits and Investment Risk Disclosures*, \$6,902,143 of the Authority's bank balance of \$15,080,844 was exposed to custodial credit risk as of May 31, 2025, as follows:

Uninsured and Uncollateralized	\$ 2,108,221
Uninsured and Collateral Held by the Pledging Bank's	
Trust Department, Not in the Authority's Name	4,793,922
Total Amount Subject to Custodial Risk	\$ 6,902,143

As of May 31, 2024, \$11,858,548 of the Authority's bank balance of \$21,762,201 was exposed to custodial credit risk as follows:

Uninsured and Uncollateralized	\$ 1,740,820
Uninsured and Collateral Held by the Pledging Bank's	
Trust Department, Not in the Authority's Name	10,117,728
Total Amount Subject to Custodial Risk	\$ 11,858,548

NOTE 3 DEPOSITS AND INVESTMENTS (CONTINUED)

Cash Equivalents

As of May 31, 2025 and 2024, the Authority's cash equivalents amounted to \$192,843,468 and \$182,580,696, respectively, and consisted of the State Short-Term Investment Fund (STIF), with a credit rating of AAAm by Standard & Poor's, United States Treasuries and cash portions of fiduciary funds held at custodial institutions.

Investments

As of May 31, 2025, the Authority had the following investments:

			Investment Maturities (Years)

Total Investments	_	\$ 96,433,809				

NOTE 3 DEPOSITS AND INVESTMENTS (CONTINUED)

Interest Rate Risk

The Authority typically prefers to limit its investment maturities to five years. Investments with maturities over one year are held within reserve accounts with limited liquidity requirements.

Credit Risk - Investments

As indicated above, the Authority's *General Bond Resolution* limits the investment options of the Authority. For investments governed by the *General Bond Resolution*, the Authority has an investment policy that allows the same types of investments as the *General Bond Resolution*.

Concentration of Credit Risk

The Authority, other than for investments held in the pension and OPEB plans, has no policy limiting an investment in any one issuer that is in excess of 5% of the Authority's total investments. The investment policy statement for the pension and OPEB plans governs allowed investment concentration and does include concentration restrictions.

Custodial Credit Risk

Custodial credit risk for an investment is the risk that, in the event of the failure of the counterparty (the institution that pledges collateral or repurchase agreement securities to the Authority or that sells investments to or buys investments for the Authority), the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Authority does not have a policy for custodial credit risk. As of May 31, 2025 and 2024, the Authority was not subject to custodial risk because it did not have any uninsured and unregistered securities held by the counterparty or by its trust department or agent that were not in the Authority's name.

NOTE 3 DEPOSITS AND INVESTMENTS (CONTINUED)

Fair Value

The Authority categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements); followed by quoted prices in inactive markets or for similar assets with observable inputs (Level 2 measurements); and the lowest priority to unobservable inputs (Level 3 measurements).

The Authority has the following recurring fair value measurements as of May 31, 2025:

	Fair Value Measurements Using:					
Total	Level 1	Level 2	Level 3			
\$ 6,746,904	\$ -	\$ 6,746,904	\$ -			
3,385,236	-	3,385,236	-			
8,433,858	-	8,433,858	-			
70,990,665	70,990,665	-	-			
1,884,991	-	1,884,991	-			
\$ 91,441,654	\$ 70,990,665	\$ 20,450,989	\$ -			
	\$ 6,746,904 3,385,236 8,433,858 70,990,665 1,884,991	Total Level 1 \$ 6,746,904 \$ - 3,385,236 - 8,433,858 - 70,990,665 70,990,665 1,884,991 -	Total Level 1 Level 2 \$ 6,746,904 \$ - \$ 6,746,904 3,385,236 - 3,385,236 8,433,858 - 8,433,858 70,990,665 70,990,665 - 1,884,991 - 1,884,991			

The Authority has the following recurring fair value measurements as of May 31, 2024:

		Fair Value Measurements Using:					
	Total Level 1		Level 2	Level 3			
Investments by Fair Value Level:							
U.S. Government Securities	\$ 2,667,763	\$ -	\$ 2,667,763	\$ -			
U.S. Government Agencies	15,279,178	-	15,279,178	-			
Corporate Bonds	7,895,544	-	7,895,544	-			
Mutual Funds	68,803,533	68,803,533	-	-			
Investment in Community Foundation Portfolio	1,787,791	-	1,787,791	-			
Total Investments by Fair Value Level	\$ 96,433,809	\$ 68,803,533	\$ 27,630,276	\$ -			

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. The Investment in Community Foundation Portfolio are investments managed by others and are valued at the quoted fair value of the underlying assets held at year-end.

The Authority did not have any investments measured at net asset value (NAV) as of May 31, 2025 and 2024.

Utility Plant - Net	\$ 6	04,442,063	\$	23,645,104	\$		\$	(1,328,037)	\$	626,759,130

During fiscal years 2025 and 2024, the Authority retired assets with accumulated depreciation totaling approximately \$1.7 million and \$1.5 million, respectively.

NOTE 5 LEASE RECEIVABLES

The Authority, acting as lessor, leases land under long-term, noncancelable lease agreements. The leases expire at various dates through fiscal year 2082. During the year ended May 31, 2025, the Authority recognized \$96,634 and \$30,220 in lease revenue and interest revenue, respectively, pursuant to these contracts. During the year ended May 31, 2024, the Authority recognized \$93,636 and \$29,348 in lease revenue and interest revenue, respectively, pursuant to these contracts.

NOTE 5 LEASE RECEIVABLES (CONTINUED)

Principal and interest requirements to maturity under lease agreements are as follows:

Year Ending May 31,	 Principal		Interest		Total
2026	\$ \$ 75,439		28,635	\$	104,074
2027	35,208		27,195		62,403
2028	29,425		26,265		55,690
2029	20,195		25,495		45,690
2030	20,868		24,942		45,810
Thereafter	 1,096,739		550,225		1,646,964
Totals	\$ 1,277,874	\$	682,757	\$	1,960,631

NOTE 6 RESTRICTED ASSETS

Pursuant to the *General Bond Resolution* of the Authority adopted July 31, 1980, as amended and supplemented, the following funds of restricted assets must be maintained. The Authority may use the assets of these funds only for the following purposes specified in the General Bond Resolution. In April 2025, AWA adopted its own General Bond Resolution. However, as of May 31, 2025 there are no restricted assets under this General Bond Resolution. Therefore, the descriptions below pertain to the Authority's *General Bond Resolution*, adopted July 31, 1980, as amended and supplemented.

Construction

Bond proceeds and other amounts deposited in the Construction Fund may be applied only toward payment of the costs of water system capital projects upon submission of a requisition to the trustee. However, the Construction Fund may be used for debt service if no other funds are available.

Debt Service

The Authority is required to maintain a Debt Service Fund to ensure payment of interest and principal when due. The Authority must make a deposit each month to provide funds for payment of interest and principal becoming due. No such deposits need be made if the fund already contains sufficient dollars to satisfy interest coming due within six months and principal coming due within twelve months. The *General Bond Resolution* provides that, if the balances of the Debt Service Fund and Debt Reserve Fund are insufficient to pay interest, principal or sinking fund payments, the Authority must withdraw the deficiency from any of the other funds maintained by it.

Debt Reserve

The Authority is required to maintain a Debt Reserve Fund in an amount equal to the maximum aggregate of principal and interest payments becoming due in any one year in which bonds are outstanding. Amounts in the Debt Reserve Fund are to be used by the Authority in the event debt service requirements cannot be fully paid from amounts in the Debt Service Fund. To satisfy the requirements of the *General Bond Resolution*, the Authority's Debt Reserve Fund comprises surety bonds, bond proceeds, and drinking water loans.

NOTE 6 RESTRICTED ASSETS (CONTINUED)

Payments-in-Lieu-of-Taxes (PILOT)

The Act requires the Authority to make payments-in-lieu-of-taxes (PILOT) to the municipalities in which the Authority owns property. The Authority is required to make monthly deposits into the PILOT Fund in amounts sufficient to provide funds for PILOT that has become due in that month.

Operating Reserve

The Authority is required to maintain an Operating Reserve Fund in an amount equal to at least one-sixth of the amount budgeted for operating expenses at the beginning of its fiscal year. Amounts in the Operating Reserve Fund may be used to pay operating expenses to the extent monies are not otherwise available.

Capital Contingency

The Authority must maintain a Capital Contingency Fund in an amount equal to or greater than 1% of outstanding bonds, less principal deposits at the time of calculation, to provide for the cost of capital projects made necessary by emergencies or other unforeseen circumstances or events.

Insurance Reserve

The General Bond Resolution requires the Authority to keep its property insured and to carry general liability insurance (or maintain an insurance reserve fund). The Authority does not maintain an insurance reserve fund because it carries general liability coverage through a member-owned program of "captive" insurance and carries property insurance. The Authority also has other insurance coverage.

Rate Stabilization

The Authority established its Rate Stabilization Fund in 1996. The Rate Stabilization Fund includes a Variable Rate Bond Sub-account and a Surplus Sub-account. Per the *General Bond Resolution*, before the last day of the first month of each fiscal year, the Authority will deposit in the Rate Stabilization Fund Variable Rate Bonds Sub-account the amount, if any, by which the interest on variable rate bonds assumed for rate-making purposes or, if lower, the maximum amount of interest payable under an interest rate limitation contract, exceeded the amount of interest and related costs paid during the previous fiscal year. As of May 31, 2025 and 2024, there is no outstanding variable rate debt under the *General Bond Resolution*; therefore, no deposits were required.

After the initial funding of the Rate Stabilization Fund Surplus Sub-account as specified in a written certification by the Authority and transferred from the General Fund, the Authority shall transfer monies to the Revenue Fund to the extent required to make up deficiencies in any of the funds established under Section 402 of the *General Bond Resolution*. The Authority may at any time transfer any monies in the Rate Stabilization Fund Surplus Sub-account to the Revenue Fund, but only if each of the other funds are funded at or above their respective requirements.

NOTE 6 RESTRICTED ASSETS (CONTINUED)

The balances in the various funds as of May 31 are as follows:

	2025	2024
Construction	\$ 77,946,244	\$ 82,361,027
Debt Reserve	24,794,046	23,013,693
Debt Service	31,306,215	31,606,804
Payments-in-Lieu-of-Taxes (PILOT)	4,109,925	4,001,290
Operating Reserve	12,343,656	11,934,924
Capital Contingency	6,244,220	6,220,680
Rate Stabilization	10,000,000	10,000,000
Other Purposes	2,785,484	3,426,115
Restricted Assets	\$ 169,529,790	\$ 172,564,533

The level of funds required by the General Bond Resolution was met on May 31, 2025 and 2024.

NOTE 7 THE CLAIRE C. BENNITT WATERSHED FUND

As discussed in Note 1, The Claire C. Bennitt Watershed Fund, Inc. (the Watershed Fund) is a separate legal entity organized and operated exclusively for charitable, educational, and scientific purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code of 1986, specifically for the purpose of protecting watershed land that has distinctive ecological significance through open space acquisition and environmental education. The Authority is the sole member of the Watershed Fund. The Watershed Fund is governed by a board of directors, which includes certain members of the Five-Member Authority and the Representative Policy Board (RPB), as well as an employee(s) of the Authority. The Five-Member Authority elects the board of directors.

The Authority made an initial donation of \$1,234,000 to establish the Watershed Fund. Additional contributions of \$452,000 and \$7,700 were made by the Authority in 2000 and 2020, respectively. In fiscal 2023, the Watershed Fund provided a \$20,000 grant to the Authority towards the purchase of land. This was recorded as a contribution from a related entity. The Watershed Fund had total net position of \$1,782,478 and \$1,727,630 as of May 31, 2025 and 2024, respectively. The Authority donated goods and services to the Watershed Fund totaling \$12,631 and \$12,879 for the years ended May 31, 2025 and 2024, respectively.

As discussed in Note 1, the Watershed Fund is included as a blended component unit in the Authority's financial statements.

NOTE 8 LONG-TERM LIABILITIES

Long-term liability activity for the year ended May 31 was as follows:

2025	Beginning Balance	Increases Decreases		Ending Balance	Due Within One Year

^{*} The beginning balance in fiscal year 2024 was restated due to the implementation of GASB Statement No. 96, Subscription Based Information Technology Arrangements.

Revenue Bonds Payable

The Authority issues Water System Revenue Bonds to finance capital projects and to provide certain restricted funds, as required by the *General Bond Resolution*. The Water System Revenue Bonds are secured by a pledge of all revenues and all moneys and securities in all funds established by the *General Bond Resolution*. Revenues include income derived from the payment of rates and charges for water service and from investments of monies in the funds established under the *General Bond Resolution*, other than the Construction Fund. Revenues do not include government grants and contributions for capital improvements.

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

Revenue Bonds Payable (Continued)

Revenue bonds outstanding comprise the following:

		Original				Balance
	Issuance	Maturity	Original	Original		May 31,

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

Revenue Bonds Payable (Continued)

The Federal American Recovery and Reinvestment Act of 2009, Pub. L. No. 111-5, 123 Stat. 115 (2009), enacted February 17, 2009 (the Recovery Act), authorizes state and local governments to issue two general types of taxable Build America Bonds (Taxable BABs) with the federal government providing subsidies for a portion of their borrowing cost. One type of Taxable BAB provides a federal tax credit to the bondholder; the other provides a credit in the form of an interest subsidy payment directly to the issuer (Taxable BABs - Direct Payment). The General Obligation Bonds, Issue of 2010 were issued as Taxable BABs – Direct Payment on April 6, 2010, for \$31,385,000. Pursuant to the Recovery Act, at inception, the Authority received a cash subsidy payment from the United States Treasury equal to 35% of the interest payable on the General Obligation Bonds, Issue of 2010 on or about each interest payment date. The 35% equates to \$348,411 per payment, occurring twice a year. Such subsidy payment represents revenue to the Authority under the General Bond Resolution. No holders of the General Obligation Bonds, Issue of 2010 will be entitled to a tax credit. The receipt of the subsidy by the Authority is not a condition of payment of any portion of the principal and interest on the General Obligation Bonds, Issue of 2010. However, if the subsidy payments are reduced or eliminated, the General Obligation Bonds, Issue of 2010 are subject to extraordinary optional redemption. Due to provisions within the Budget Control Act of 2011 and the implementation of sequestration, the amount of the subsidy has been reduced on payments made to issuers on or after March 1, 2013, resulting in a decrease to the Authority's August 1, 2013, payment, and the twice-annual payments through the current period. Reductions to the subsidy have ranged from a high of 8.7% to a low of 5.7%. A 5.7% reduction was effective for the payments received by the Authority in fiscal year 2024 and fiscal year 2025. The percent is subject to further change. The interest subsidy received totaled approximately \$644 thousand dollars for the fiscal year ended May 31, 2025, and \$657 thousand dollars for the fiscal year ended ending May 31, 2024, respectively. These amounts are adjusted for the over payment received in fiscal year 2024 and trued-up in fiscal year 2025 and excludes interest associated with payment processing delays.

Aggregate maturities of the Authority's water system revenue bonds are as follows:

Year Ending May 31,	Principal	Interest
2026	\$ 22,895,000	\$ 20,748,142
2027	25,720,000	19,925,145
2028	26,775,000	18,864,313
2029	27,910,000	17,751,250
2030	29,140,000	16,492,822
2031-2035	153,060,000	62,431,545
2036-2040	117,040,000	33,297,046
2041-2045	49,620,000	14,736,092
2046-2050	29,660,000	6,724,225
2051-2055	14,060,000	1,410,100
Total	\$ 495,880,000	\$ 212,380,680

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

The following represents the more significant requirements of the Authority's *General Bond Resolution*:

Rate Covenants

The Authority shall have reasonable rates for each class of service and is required to establish rates and charges at levels sufficient to cover annual operating and maintenance expenses, PILOT, all debt service requirements, and any amounts necessary to meet reserve requirements established by the *General Bond Resolution*. In addition, collected revenues, less operating and maintenance expenses incurred, PILOT and depreciation expense must equal 114% of annual debt service for fiscal years 2025 and 2024. Depreciation expense and other terms are as defined in the *General Bond Resolution*. Also, collected revenues, less operating and maintenance expenses incurred, and depreciation expense must equal 125% of annual debt service before PILOT.

The Act provides that the rates and charges proposed by the Authority are subject to approval by the Representative Policy Board (RPB) following a public hearing. However, the Act also provides that the RPB shall approve such rates and charges proposed by the Authority unless it finds that such rates and charges will provide funds insufficient for, or significantly in excess of, the amounts required to meet expenses of the Authority and the requirements of the General Bond Resolution.

As of May 31, 2025 and 2024, the Authority was in compliance with the requirements of the *General Bond Resolution*.

Leases Payable

The Authority leases equipment as well as certain operating and office facilities for various terms under long-term, noncancelable lease agreements. The leases expire at various dates through fiscal year 2032.

Principal and interest requirements to maturity under lease agreements are as follows:

Year Ending May 31,	Principal		Interest		Total	
2026	\$	84,316	\$	8,342	\$	92,658
2027		74,285		6,504		80,789
2028		71,432		4,633		76,065
2029		50,613		3,169		53,782
2030		46,181		2,119		48,300
Thereafter		75,289		1,247		76,536
Totals	\$	402,116	\$	26,014	\$	428,130

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

Leases Payable (Continued)

Totals	\$ 6,689,107	\$	804,081	\$ 7,493,188

Assets acquired through outstanding SBITA agreements are shown below, by underlying asset class.

	 2025		2024
Subscription Based Information Technology Arrangements	\$ 24,709,145	\$	7,322,790
Less: Accumulated Amortization	(2,478,894)		(2,862,336)
Total	\$ 22,230,251	\$	4,460,454

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

Maintenance of Funds

The General Bond Resolution provides for the maintenance of certain funds as discussed in Note 6, which for financial reporting purposes are subparts of the Authority's overall enterprise fund. All revenues (as defined and governed by the General Bond Resolution) collected by the Authority are deposited into the Revenue Fund and applied first to the payment of operating expenses, as defined, and then deposited to restricted funds required to be maintained by the General Bond Resolution. Funds remaining in the Revenue Fund at the end of the year, after the above requirements are met, are to be transferred to the General Fund, which is available to the Authority for any lawful purpose of the Authority. In June 2025, the Authority authorized approximately \$20.3 million of cash and cash equivalents to be transferred to the General Fund and, subsequently, approximately \$16.1 million to be transferred from the General Fund to the Construction Fund and approximately \$20.3 million transfer was left in the General Fund. While not governed under the General Bond Resolution, a transfer was also made from RWA Well Services, LLC to the Authority's Construction Fund.

On March 13, 2025, the Authority issued \$55,430,000 (par value) of Water System Revenue Refunding Bonds, Thirty-eighth Series, to tender refund certain maturities of the Authority's Thirty-second Series B, Thirty-third Series B-1, Thirty-fourth Series B Taxable, and Thirty-fifth Series Taxable Bonds. The tender refunding reduced debt service payments by \$5,098,014 and represents an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$4,122,308. This was a tender refunding with an immediate call.

Drinking Water Loans Payable - Direct Borrowing

The Authority participates in the State of Connecticut's Drinking Water State Revolving Fund (DWSRF) programs, which provide low-interest loans currently bearing 2% interest for eligible drinking water projects. Qualified projects are financed by subordinate interim financing, revenue bonds, and/or internally generated funds, until such projects are complete and there is an executed project loan obligation. Proceeds received at the execution of the project loan obligation are used to reimburse Authority funds previously used and/or pay-off interim subordinate financing as well as to fund associated reserve requirements. Project loan obligations are at parity with the Authority's revenue bonds under the *General Bond Resolution*.

Long-term loan obligations mature as follows:

Year Ending May 31,	Principal	 Interest
2026	\$ 2,193,400	\$ 756,090
2027	2,237,674	711,818
2028	2,282,840	666,652
2029	2,328,916	620,574
2030	2,375,924	573,565
2031-2035	12,618,625	2,128,828
2036-2040	10,627,675	876,508
2041-2045	4,141,115	 158,712
Total	\$ 38,806,169	\$ 6,492,747

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

<u>Drinking Water Loans Payable - Direct Borrowing (Continued)</u>

The state may terminate the obligation to make the Project Loan, with 60 days written notice, if the state determines that such terminations is in the best interest of the state and the Authority fails to perform its obligations under the agreement. After giving notice, the state has discretion not to terminate the Project Loan if the Authority performs its obligations to the satisfaction of the state.

NOTE 9 BOND ANTICIPATION NOTES PAYABLE

In October 2020, a Series D draw down note was issued in an amount of \$5,000,000. On the same day \$50,500 was drawn. This note matured in October 2021 and a Series A draw down note was issued and \$50,500 was drawn. This note matured in April 2022 and \$50,500 was drawn. This note was re-issued in April 2023, 2024, and 2025 and each time \$50,500 has been drawn. The \$50,500 was drawn for temporary financing to be utilized for capital projects. In addition, in June 2024 \$3,350,000 was issued associated with the HSV transaction. This issuance was repaid in January 2025 with proceeds from the 39th Series debt issuance. The principal balance as of May 31, 2025, is \$50,500.

Bond anticipation note transactions for the year ended May 31, 2025, were as follows:

Outstanding, May 31, 2024	\$ 50,500
New Borrowings	3,400,500
Repayments	 (3,400,500)
Outstanding, May 31, 2025	\$ 50,500

NOTE 10 HAZWASTE CENTRAL

As an agent for the South Central Connecticut Regional Council of Governments, the Authority owns and operates a regional collection center for household hazardous waste, HazWaste Central, located at its headquarters on Sargent Drive.

Since HazWaste Central receives its revenue after incurring its operating costs, the Authority provides advance funding to the organization. The Authority is reimbursed for its advances when revenue is received by that organization.

NOTE 11 COMMITMENTS AND CONTINGENCIES

In the opinion of the Authority and its legal counsel, various legal matters in which the Authority is currently involved will not materially affect the Authority's financial position.

Litigation

A number of claims and suits are pending against the Authority for alleged damages to persons and properties, and for other alleged liabilities arising out of its operations. The probable outcome of such matters cannot be determined at this time; however, in the opinion of management, any ultimate liability that may arise from these actions is not expected to materially affect the Authority's financial position.

Capital and Other Commitments

As of May 31, 2025, the Authority has an estimated \$12.6 million projected remaining capital expenditures associated with ongoing projects under cancellable binding contracts. In addition, the agreement for the implementation and on-going support of a new Customer Information System has a termination fee of \$1.5 million during the first year-post go-live. A second agreement regarding a solar array contains a termination for convenience fee of approximately \$1.3 million. The Authority does not intend to terminate these agreements.

Prior to the closing of the AWA transaction to acquire Aquarion, RWA has certain responsibilities and obligations under executed agreements. If regulatory approval is obtained and the transaction closes, RWA will cease to have such obligations.

Risk Management

The Authority is subject to certain business risks common to the utility industry. Most of these risks are mitigated by traditional insurance coverage obtained by the Authority. For risks associated with workers' compensation, automobile and general liability, the Authority elected, as of October 31, 2000, to participate in a program of member-owned "captive" insurance. It is management's belief that the Authority's exposure to losses arising from its participation in a program of "captive" insurance will not materially affect the financial results of the Authority's operations and cash flows.

Letter of Credit

The Authority has available to them a \$2,268,382 letter of credit that expires March 1, 2026. There were no borrowings on this letter of credit as of May 31, 2025 and 2024.

NOTE 11 COMMITMENTS AND CONTINGENCIES (CONTINUED)

Self-Insurance

The Authority administers a program of self-insurance for certain medical and dental claims and provides for losses by charging operating expense as liabilities are incurred. The Authority records a liability, in accounts and other payables, and other accrued liabilities, when it is probable that it has incurred an uninsured loss, and it can reasonably estimate that loss. The Authority's liability for unpaid claims is based upon the estimated cost of settling the claims after a review of estimated recoveries. Changes in the amounts recorded for liabilities for the years ended May 31, 2025 and 2024, were as follows:

	Beginning	(Claims and		Additional		Ending				
2025	 Balance	Ex	penses Paid		Reserves		Balance				
Medical and Dental Claims	\$ 623,359	\$	(7,000,571)	\$	6,941,652	\$	564,440				
Insurance Reserve for "Captive" (October 1,											
2000 - Present)	2,109,805		(482,544)		446,364		2,073,625				
Insurance Reserve (Pre October 1, 2000)	291,000		(179,937)		124,071		235,134				
Total Liability	\$ 3,024,164	\$	(7,663,052)	\$	7,512,087	\$	2,873,199				
	Beginning	(Claims and		Additional		Ending				
2024	Balance	Ex	Expenses Paid		Expenses Paid		Expenses Paid		Reserves		Balance
Medical and Dental Claims	\$ 530,498	\$	(5,738,615)	\$	5,831,476	\$	623,359

NOTE 12 DEFINED BENEFIT PENSION PLANS

Plan Description

The Authority's two retirement plans are single-employer defined benefit pension plans administered under a master trust agreement by the Five-Member Authority. The retirement plans provide retirement and disability benefits to the plans' members and their beneficiaries. Cost-of-living adjustments are not provided to members and beneficiaries but may be made at the discretion of the Authority. The Authority establishes and amends benefit provisions of the plans.

The pension plans are included in the Authority's financial reporting entity and accounted for in the Pension Trust Fund. The Authority does not issue a stand-alone financial report for the plans.

Management of the plan rests with the Pension and Benefit Committee of the Five-Member Authority. The Pension and Benefit Committee consists of all five members of the Five-Member Authority. As of May 31, 2025, two members of senior management are authorized and empowered to act as management's Pension Review Committee for the Authority's Salaried Employees' Retirement Plan and Retirement Plan (Union), with instructions to defer final action on nonroutine or discretionary matters until they have consulted with the Pension and Benefits Committee.

NOTE 12 DEFINED BENEFIT PENSION PLANS (CONTINUED)

Plan Description (Continued)

At January 1, 2025, which is the date of the latest actuarial valuations, membership consisted of the following:

	Salaried Plan	Bargaining Unit Plan
Retirees, Disabled, and Beneficiaries Currently		
Receiving Benefits	187	114
Vested Terminated Members Entitled to But Not		
Yet Receiving Benefits	53	38
Current Active Members	64_	55
Total Members	304	207

At January 1, 2024, which is the date of the prior actuarial valuations, membership consisted of the following:

	Salaried	Bargaining
	Plan	Unit Plan
Retirees, Disabled, and Beneficiaries Currently		
Receiving Benefits	177	116
Vested Terminated Members Entitled to But Not		
Yet Receiving Benefits	60	37
Current Active Members	67	60
Total Members	304	213

Both plans have been closed to new entrants. The salaried plan was closed to new entrants as of January 1, 2011, and the bargaining unit plan was closed to new entrants as of April 15, 2010.

Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting

The Pension Trust Fund's financial statements are prepared on the accrual basis of accounting. Employer contributions are recognized as revenues in the period in which employee services are performed. Benefits and refunds are recognized when due and payable in accordance with plan provisions. Administrative costs of the plan are financed through investment earnings.

Valuation of Investments

Investments are reported at fair value as determined by quoted prices in active markets.

Funding Policy

The Authority contributes, at a minimum, the actuarially determined contribution. For the year ended May 31, 2025, the Authority contributed approximately \$1.0 million in excess of the actuarial required contribution. In May 31, 2024, the Authority contributed approximately \$2.1 million in excess of the required contribution.

Investments

Investment Policy

The Five-Member Authority determines the asset allocation ranges and targets, and the investment advisor has discretion to invest within the authorized ranges and to select the specific investments within an asset category. As of May 31, 2025 and 2024, the associated targets were as follows:

	Target Allocation					
Asset Class	2025	2024				
Fixed Income	30 %	30 %				
U.S. Equity	37	37				
Global	4	4				
International Equity	14	14				
Alternative, Hedge, and Swing	15	15				
Total	100 %	100 %				

The asset allocation targets and ranges, effective July 18, 2019, were authorized by the Five-Member Authority. The equity target was set in total, with discretion allowed among the category of equities.

Rate of Return

For the year ended May 31, 2025, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 9.30% for the salaried plan and 9.59% for the bargaining unit plan.

For the year ended May 31, 2024, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 13.83% for the salaried plan and 13.93% for the bargaining unit plan.

Net Pension Liability of the Authority

The components of the net pension liability of the Authority at May 31, 2025, were as follows:

		Bargaining
	Salaried Plan	Unit Plan
Total Pension Liability	\$ 56,204,869	\$ 32,050,315
Plan Fiduciary Net Position	49,728,008	29,731,747
Net Pension Liability	\$ 6,476,861	\$ 2,318,568
Plan Fiduciary Net Position as a Percentage of the		
Total Pension Liability	88.48%	92.77%

NOTE 12 DEFINED BENEFIT PENSION PLANS (CONTINUED)

Net Pension Liability of the Authority (Continued)

The components of the net pension liability of the Authority at May 31, 2024, were as follows:

		Bargaining
	Salaried Plan	Unit Plan
Total Pension Liability	\$ 55,047,939	\$ 31,901,779
Plan Fiduciary Net Position	47,325,862	28,001,407
Net Pension Liability	\$ 7,722,077	\$ 3,900,372
Plan Fiduciary Net Position as a Percentage of the		
Total Pension Liability	85.97%	87.77%

Actuarial Assumptions

The total pension liability as of May 31, 2025 was determined by an actuarial valuation as of January 1, 2025, rolled forward to May 31, 2025, using the following actuarial assumptions applied to all periods included in the measurement:

		Bargaining
	Salaried Plan	Unit Plan
Inflation	3%	3%
Salary Increase	4%, Average, Including	N/A
	Inflation	
Investment Rate of Return	6.75%, Net of Pension Plan	6.75%, Net of Pension Plan
	Investment Expense,	Investment Expense,
	Including Inflation	Including Inflation

The total pension liability as of May 31, 2024 was determined by an actuarial valuation as of January 1, 2024, rolled forward to May 31, 2024, using the following actuarial assumptions, applied to all periods included in the measurement:

		Bargaining
	Salaried Plan	Unit Plan
Inflation	3%	3%
Salary Increase	4%, Average, Including	N/A
	Inflation	
Investment Rate of Return	6.75%, Net of Pension Plan	6.75%, Net of Pension Plan
	Investment Expense,	Investment Expense,
	Including Inflation	Including Inflation

Mortality rates for the year ended May 31, 2025, for the Salaried Plan were based on the PubG.2016 Above Median Employee, Healthy Annuitant, and Disabled Retiree (Male/Female) with MP-2021 projection scale. Mortality rates for the Bargaining Unit Plan were based on the PubG-2016 Total Employee, Healthy Annuitant, and Disabled Retiree (Male/Female) with MP-2021 projection scale. Mortality rates for the year ended May 31, 2024, were based on the corresponding PubG-2010 tables with MP-2021 projection scale.

NOTE 12 DEFINED BENEFIT PENSION PLANS (CONTINUED)

Actuarial Assumptions (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of May 31, 2025, (see the discussion of the pension plan's investment policy) are summarized in the following table:

	Long-Term
	Expected Rate
Asset Class	of Return
Fixed Income	3.8 %
U.S. Equity	8.5
Global	8.1
International Equity	7.4
Alternatives, Hedge, and Swing	6.2

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of May 31, 2024, (see the discussion of the pension plan's investment policy) are summarized in the following table:

	Long-Term
	Expected Rate
Asset Class	of Return
Fixed Income	3.7 %
U.S. Equity	8.4
Global	8.0
International Equity	7.3
Alternatives, Hedge, and Swing	6.1

Discount Rate

The discount rate used to measure the total pension liability as of May 31, 2025, for the salaried plan was 6.75% and for the bargaining unit plan 6.75%. The discount rate used to measure the total pension liability as of May 31, 2024, for the salaried plan was 6.75% and for the bargaining unit plan 6.75%. The projection of cash flows used to determine the discount rate was made at the actuarially determined contribution. For the years ended May 31, 2025 and 2024, the Authority contributed above the actuarial required contribution. An expected rate of return of 6.75% on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 12 DEFINED BENEFIT PENSION PLANS (CONTINUED)

<u>Pension Expense and Deferred Outflows of Resources and Deferred Inflows of</u> Resources Related to Pensions (Continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ending May 31,	_	Amount		
2026	-	\$	1,726,378	
2027			(315,018)	
2028			(1,357,162)	
2029	_		(400,431)	
Total	_	\$	(346,233)	

NOTE 13 VOLUNTARY INVESTMENT PLAN

The Authority maintains a voluntary investment plan (a defined contribution 401(k) plan) covering eligible salaried employees. Salaried employees hired after January 1, 2011, receive an Authority contribution of 4.5% of their pay after six months of service. Salaried employees are not required to contribute to receive this contribution. In addition, beginning on June 1, 2025, for salaried employees hired after January 1, 2011, that contribute up to 4% of their base wages to the 401k plan, the Authority will make a 50% matching contribution up to 2%. There is no change in the match for salaried employees hired before January 1, 2011. Authority contributions vest immediately. Effective January 1, 1997, eligible bargaining unit employees were allowed to participate in the voluntary investment plan. Bargaining unit employees hired before April 15, 2010, received a 0.5% Authority contribution for plan year 2024 and 1.25% effective June 1, 2024, with no change in the employer match. Bargaining unit employees hired after April 15, 2010, and before April 15. 2014, receive an Authority contribution of 4% of pay with 100% vesting. Bargaining unit employees hired after April 15, 2014, receive an Authority contribution of 4% of their pay after six months of employment under the following vesting schedule: 50% after three years of service, 75% after four years of service, and 100% after five years of service. In addition, for bargaining unit employees hired after April 15, 2010, that contribute up to 4% of their base wages to the 401k plan, the Authority will make a 50% matching contribution, up to a maximum contribution of 2% of the participant's base wages. This contribution is in addition to the non-elective employer contribution. Cash contributions to the plan for the years ended May 31, 2025 and 2024, were as follows:

	2025		2024		
Employer Contributions	\$	1,468,484	\$	1,154,751	
Employee Contributions		2,499,477		2,350,591	

NOTE 14 OTHER POSTEMPLOYMENT BENEFITS – RETIREE HEALTH CARE

Plan Description

The Authority's OPEB plan is a single-employer defined benefit plan that includes health benefits to retirees and qualifying dependents as well as a death benefit that increased to \$13,000 in April 2017. Medical coverage for retirees and spouses over 65 is provided by an indemnity plan. Medical and dental coverage for retirees and dependents under 65 is provided by the Authority's self-insurance plan. Eligibility is stated in the funding policy section below.

In September 2008, the Authority established the South Central Connecticut Regional Water Authority Retired Employees' Contributory Welfare Trust (the Trust). On October 9, 2008, the Authority transferred \$724,462 to the Trust as its initial funding. This initial contribution comprises \$564,462 from the Birmingham Utilities Retiree Trust and \$160,000 as the Authority's initial funding of the Trust.

The retiree health plan is included in the Authority's financial reporting entity and accounted for as a trust fund. The Authority does not issue a stand-alone financial report for the plan.

The Authority opted to fund the Trust by contributing the actuarial recommended cash contribution.

Administration of the plan rests with the Pension and Benefit Committee of the Five-Member Authority. The Pension and Benefit Committee consist of all five members of the Five-Member Authority.

At January 1, 2025 and 2024, plan membership consisted of the following:

	Retiree Hea	Retiree Health Plan		
	2025	2024		
Retired Members and Spouses	261	264		
Active Plan Members	107	113		
Members Death Benefits Only	208_	172		
Total Participants	576	549		

The plan is closed to new entrants, other than for the death benefit and eligibility to participate in the group health insurance at one's own expense.

Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting

Financial statements for the Trust are prepared using the accrual method of accounting. Employee contributions are recognized as revenues in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Valuation of Investments

Investments are reported at fair value as determined by quoted prices in active markets.

NOTE 14 OTHER POSTEMPLOYMENT BENEFITS – RETIREE HEALTH CARE (CONTINUED)

<u>Summary of Significant Accounting Policies and Plan Asset Matters (Continued)</u>

Funding Policy

Requirements for contributions by union plan members are negotiated with the union. Retiree contribution requirements vary depending on retirement date and hire date as described below:

Union Employees and Spouses:

- Until they are eligible for Medicare, retired employees under 65 are subject to the same contribution levels and increases in contributions as active employees.
- Employees who retired on or before April 15, 2006, receive full benefits from the Medicare Supplemental Plan F (or comparable coverage) and Medicare Part B reimbursement for pensioner and spouse if qualified.
- Employees who retire after April 15, 2006, and who were hired before January 1, 2006, receive benefits from the Medicare Supplemental Plan F (or comparable coverage) and Medicare Part B reimbursement for pensioner and for such of their dependents as qualified at levels in place as of December 31, 2005. Retirees and qualifying dependents are responsible for costs above \$158.14 per individual per month for the Medicare Supplemental Plan and \$78.00 per individual per month for Medicare Part B.
- Retired employees who were hired on or after January 1, 2006, are entitled to continue in the group health coverage by paying the entire monthly cost for the appropriate coverage based on their age.

Nonunion Employees and Spouses:

- Until they are eligible for Medicare, retired employees under 65 are subject to the same contribution levels and increases in contributions as active employees.
- Employees who retired on or before January 1, 2006. receive full benefits from the Medicare Supplemental Plan F (or comparable coverage) and Medicare Part B reimbursement for pensioner and spouse if qualified.
- Employees who retire after January 1, 2006, and who were hired before January 1, 2005, receive benefits from the Medicare Supplemental Plan F (or comparable coverage) and Medicare Part B reimbursement for pensioner and for such of their dependents as qualified at levels in place as of December 31, 2004. Retirees and qualifying dependents are responsible for costs above \$158.14 per individual per month for the Medicare Supplemental Plan and \$66.60 per individual per month for Medicare Part B.
- Retired employees who were hired on or after January 1, 2005, are entitled to continue in the group health coverage by paying the entire monthly cost for the appropriate coverage based on their age.

NOTE 14 OTHER POSTEMPLOYMENT BENEFITS – RETIREE HEALTH CARE (CONTINUED)

Summary of Significant Accounting Policies and Plan Asset Matters (Continued)

Funding Policy (Continued)

The Authority's cash contribution to the trust was \$1,694,075 for the fiscal year ended May 31, 2025. The Authority's contribution was based on the actuarially calculated recommended cash contribution.

Investments

Investment Policy

The Five-Member Authority determines the asset allocation target and the associated ranges, and the investment advisor has discretion to invest within the authorized ranges and to select the specific investments within an asset category. As of May 31, 2025 and 2024, the associated targets were as follows:

	Target
Asset Class	Allocation
Fixed Income	30 %
US Equity	37
Global Equities	4
International Equity	14
Alternatives, Hedge, and Swing	15
Total	100 %

The asset allocation targets were approved by the Five-Member Authority on April 19, 2018. Effective July 18, 2019, the Five-Member Authority authorized revised ranges for the asset categories. The equity target was set in total with discretion allowed among the categories of equity.

Rate of Return

As of May 31, 2025 and 2024, the annual money-weighted rate of return on investments, net of investment expense, was 9.37% and 13.40%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, was determined based on an assumption of contributions and expenses being paid in the middle of the plan year.

NOTE 14 OTHER POSTEMPLOYMENT BENEFITS – RETIREE HEALTH CARE (CONTINUED)

Net OPEB Liability of the Authority

The Authority's net OPEB liability was measured as of May 31, 2025 and 2024. The components of the net OPEB liability of the Authority at May 31, 2025, were as follows:

Total OPEB Liability	\$ 25,513,409
Plan Fiduciary Net Position	10,332,335
Net OPEB Liability	\$ 15,181,074

Plan Fiduciary Net Position as a Percentage of the

Total OPEB Liability 40.50%

The components of the net OPEB liability of the Authority at May 31, 2024, were as follows:

Total OPEB Liability	\$ 26,230,544
Plan Fiduciary Net Position	 10,085,112
Net OPEB Liability	\$ 16,145,432

Plan Fiduciary Net Position as a Percentage of the

Total OPEB Liability 38.45%

Actuarial Assumptions

The total OPEB liability for May 31, 2025, was determined by an actuarial valuation as of January 1, 2025, rolled forward to May 31, 2025, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Salary Scale 4.00% Investment Rate of Return 6.75%

Healthcare Cost Trend Rates 6.50% Per Year Graded Down Using the Getzen Model

to an Ultimate Rate of 4.00% Per Year

The total OPEB liability for May 31, 2024 was determined by an actuarial valuation as of January 1, 2024, rolled forward to May 31, 2024, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Salary Scale 4.00% Investment Rate of Return 6.75%

Healthcare Cost Trend Rates 6.50% Per Year Graded Down Using the Getzen Model

to an Ultimate Rate of 4.04% Per Year

NOTE 14 OTHER POSTEMPLOYMENT BENEFITS – RETIREE HEALTH CARE (CONTINUED)

Actuarial Assumptions (Continued)

Mortality rates for the year ended May 31, 2025, were based on the 2016 Public Sector Retirement Plans Mortality table for above-average-salary general employee populations with MP-2021 mortality improvement scale.

Mortality rates for the year ended May 31, 2024 were based on the 2010 Public Sector Retirement Plans Mortality table for above-average-salary general employee populations with MP-2021 mortality improvement scale.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The best estimates of arithmetic real rates of return for each major asset as of May 31, 2025, are summarized in the following table:

	Long-Term
	Expected Rate
Asset Class	of Return
Fixed Income	3.8 %
US Equity	8.5
Global Equities	8.1
International Equity	7.4
Alternative, Hedge, and Swing	6.2

The best estimates of arithmetic real rates of return for each major asset as of May 31, 2024 as summarized in the following table:

	Long-Term
	Expected Rate
Asset Class	of Return
Fixed Income	3.7 %
US Equity	8.4
Global Equities	8.0
International Equity	7.3
Alternative, Hedge, and Swing	6.1

Discount Rate

The discount rate used to measure the total OPEB liability was 6.75% for the years ended May 31, 2025 and 2024. The projection of cash flows used to determine the discount rate assumed that Authority contributions will be made at rates equal to the actuarially determined contribution rates.

SOUTH CENTRAL CONNECTICUT REGIONAL WATER AUTHORITY NOTES TO FINANCIAL STATEMENTS MAY 31, 2025 AND 2024

NOTE 14 OTHER POSTEMPLOYMENT BENEFITS – RETIREE HEALTH CARE (CONTINUED)

Actuarial Valuations

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrences of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare costs trend. Amounts determined regarding the funding status of the plan and the annual required contributions of the employer are subject to continual revision as actuarial results are compared with past expectations and new estimates are made about the future.

Projections for benefits for financial reporting purposes are based on the substantive requirements and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2025, actuarial valuation, the frozen entry age normal actuarial funding method was used with a healthcare cost trend of 6.50% graded down by the Getzen Model to an ultimate rate of 4.00% annually and a discount rate of 6.75%.

NOTE 15 BLENDED COMPONENT UNITS

The Watershed Fund and AWA, for fiscal 2025, have been included as part of the financial statements.

Prior to the closing of the AWA transaction to acquire Aquarion, RWA has certain responsibilities and obligations under executed agreements. If regulatory approval is obtained and the transaction closes, RWA will cease to have such obligations. The corresponding inter-entity balances for amounts payable from AWA and receivable for RWA are eliminated in consolidation.

SOUTH CENTRAL CONNECTICUT REGIONAL WATER AUTHORITY NOTES TO FINANCIAL STATEMENTS MAY 31, 2025 AND 2024

NOTE 15 BLENDED COMPONENT UNITS (CONTINUED)

In accordance with GASB 61, the following summarized information as of May 31, 2025 and 2024 is required:

Notes to Schedule:

Valuation Date January 1, 2025 Measurement Date January 1, 2025 May 31, 2025

Calculated as the normal cost as of January 1, prior to the beginning of the fiscal year in which contributions are reported, increased with a half year of interest.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method Aggregate Actuarial Cost Method

Normal Cost Determined in the aggregate equal to the actuarial present value of future normal cost divided by a temporary annuity. The actuarial present value of future normal

cost equals the actuarial present value of future benefits less the adjusted actuarial value of plan assets. The temporary annuity equals the total actuarial present

value of future compensation divided by the total compensation for all participants who have not reached their assumed retirement age.

Asset Valuation Method An actuarial smoothing method based on market value of assets plus 75% of expected returns.

Inflation 3.00% Salary Increases 4.00%

Investment Rate of Return 6.75%, Net of Pension Plan Investment Expense, Including Inflation

Retirement Age

Age	Rate
55-59	5%
60-64	10%
65-69	20%
70	100%

Rule of 80 Retirement Rates:

- (9) Includes covered payroll of \$19,388,804 associated with death benefit only participants.

Notes to Schedule:

Valuation Date January 1, 2025 Measurement Date May 31, 2025

Calculated as the normal cost as of January 1, prior to the beginning of the fiscal year in which contributions are reported, increased with a half year of interest.

Methods and Assumptions Used to Determine Contribution Rates:
Actuarial Cost Method Entry Age Actuarial Cost Method

Amortization Method Fair Market Value of Assets as of the Measurement Date.

Salary Scale 4.00%

Investment Rate of Return 6.75%, Net of OPEB Plan Investment Expense, Including Inflation

Retirement Age Retirement eligibility is (a) age 65 with 10 years of service or (b) 80 points (age plus service) with at least 10 years of service. Pre-age 65 retirements based on percentages.

Mortality Assumed life expectancies were calculated using the 2016 Public Sector Retirement Plans Mortality table for Above average salary general employee populations with MP-2021 mortality

improvement scale. (Prior: 2010 Public Sector Retirement Plans Mortality table for Above average salary general employee populations with MP-2021 mortality improvement)
